Water Filtration

Explore water filtration solutions designed to suit all kinds of whole-house needs, such as bitter tasting water or chlorine odors. A whole house water filter from Aerus treats your water directly at the source, so you enjoy the benefits of cleaner, fresher water from every faucet.

F150V

The F150V is a whole home filtration system that uses activated carbon to treat a wide range of water issues. Using proven electronic valve controls, this hands-free system offers years of maintenance free operation while neutralizing objectionable tastes and odors from your water.

Features and Benefits:

- Fully ported electronic valve affords hands-free automatic operation
- Accommodates any type of plumbing
- Coconut shell activated carbon media eliminates both sediment and taste issues
- Chlorine free, “polished” water from every faucet in your home
- Eliminates particulate such as sand, rust, and other sediment
- Reduction of objectionable smells from odor causing organics
- Better tasting water, coffee, tea, and other beverages made from tap water
- Automated backwash controls purge accumulated sediment from the filter bed

F100V

The F100V is a whole home filtration system that uses activated carbon to treat a wide range of water problems. With the ability to easily dechlorinate the water as well as neutralize objectionable tastes and odors, this hands-free system offers years of maintenance free operation.

Features and Benefits:

- Fully ported electronic valve affords hands-free automatic operation
- Accommodates any type of plumbing
- Coconut shell activated carbon media eliminates both sediment and taste issues
- Chlorine free, “polished” water from every faucet in your home
- Eliminates particulate such as sand, rust, and other sediment
- Reduction of objectionable smells from odor causing organics
- Better tasting water, coffee, tea, and other beverages made from tap water
- Automated backwash controls purge accumulated sediment from the filter bed

F100

The F100 is a whole home water filtration system that works to remove Chlorine and odors from your water while also improving the taste.

Features and Benefits:

- Valve does not require electricity
- Includes by-pass with 3/4" and 1" quick connect pipe fittings
- No drain required
- Enjoy filtered water from every faucet in your house
- Reduce Chlorine and odors
- Better tasting water, coffee, tea and other beverages made with tap water
- Care-free system with no backwash required
